"I place it among the highest qualifications of the teacher that he should have just views of education. I consider it all important that he should have a well-defined object at which to aim whenever he meets a young mind in the transition state. He should have an ideal of a well-educated human soul teaching a healthy, well-developed human body—an ideal which he at once and systematically labors to reach, as does the sculptor when he commences his work upon the quarried marble."

Introduction

The aim of Athens College is to give broad general culture. She seeks to develop her students into strong, broad-minded Christian women that they may be capable of serving humanity in all fields now open to women. She aims to train both mind and soul. It is her ambition to make this training so thorough that every young woman who leaves the college will be imbued with a high and noble purpose in life.

Such training cannot be given by institutions whose aim is to gain revenue. Athens College desires to return to her patrons far more than she receives. She claims honest efficiency.

In order that the methods for carrying on her lofty purposes may consistently meet the best educational standards of the day a campaign is being made for \$100,000. This sum must be raised by April, 1916, if Athens maintain her standing among the A grade colleges of America.

From all who are interested in securing opportunities of training for women consistent with present demands we invite co-operation in this movement.

We solicit your serious interest!

History of Athens College

Athens College was projected in October, 1842, at a session of the Tennessee Annual Conference held in Athens. In 1843 the Legislature of Alabama granted a charter incorporating the Female Institute of the Tennessee Annual Conference. The character and dignity of the undertaking may be estimated by the Board of Trustees named in the act of incorporation, viz.: A. L. P. Green, Thomas Maddin, Ambrose F. Driskill, Joshua Bucher, Frederick G. Ferguson, Daniel Coleman, Ira E. Hobbs, Benjamin W. Maclin, Thomas Bass, James F. Sowell, Thomas Stith Malone, James C. Malone, William Richardson, George S. Houston, Richard W. Vassar, Jonathan McDonald, James Craig.

The lofty aims of the institution were further shown in the election of the learned and sweet-spirited Rev. R. H. Rivers, D. D., author of *Rivers' Mental and Moral Philosophy*, as its first President.

In 1870 the North Alabama Conference was organized. Athens, with all the northern part of the State of Alabama, came into the confines of that Conference. All church property in that territory formerly held by the Tennessee Conference was also transferred to the North Alabama Conference.

In 1872 the charter was amended, changing the name to Athens Female Institute. In 1889 the charter was amended again, and the name changed to Athens Female College. The name has since been corrected to Athens College.

The institution is historic. From its inception it has been a church school. The Tennessee, the Alabama and the North Alabama Conferences have controlled it at different times. It is located in a community that has given to Alabama two United States Senators, a Governor, six Supreme Court Judges, two Chief Justices, and a long line of other distinguished men and cultured women. It

is today the only institution for the education of young women owned or controlled exclusively by the North Alabama Conference. The College has an honorable history, and is enshrined in the hearts of thousands of our people. There is not a district in the Conference in which there are not parsonage homes presided over by Athens College women. There is scarcely a State in the Union in which its alumnae are not to be found. The Nation owes a debt of gratitude to Athens College.

Location

Athens College is situated in Athens, Alabama, on the main line of the Louisville and Nashville Railroad, fourteen miles from its junction with the main line of the Southern. It is just half way between the two great centers of Southern Methodism, Nashville and Birmingham, and is near the foothills of the Cumberland Range. As the elevation is between 800 and 1000 feet—about twice that of either Birmingham, Nashville, or Montgomery, the location of Athens College constitutes one of its greatest assets.

Athens, the county seat of Limestone County, has a population of about 3,000. It is the second highest town on the Louisville and Nashville Railroad, between Cincinnati and the Gulf.

A new line, the Lewisburg and Northern, has recently been constructed by the Louisville and Nashville Railroad and Athens is the junction point. This forms a part of the parallel track to the Gulf which has been constructed to make ready for the increase of transportation demands resulting from the opening of the Panama Canal. Railroad facilities in Athens are unexcelled and perfect connections can be made for all points. Athens has twelve daily passenger trains.

Buildings

There are six buildings in all. Four are of brick, including the main structure of Ionic design, the beautiful

new music hall, Brown Hall, a dormitory for college students and the new heating plant.

MAIN BUILDING

The main building, which was erected in 1843, really consists of four buildings as three wings have been added to the central part, but all are connected as one. The first floor of this building contains the Academy, study hall and class rooms, business offices, large parlors, spacious dining hall, laboratory and Domestic Science rooms. The library, class rooms and sleeping rooms occupy the second floor, while the third floor contains sleeping rooms. The furnishings are in good taste, simple and homelike, without attempt at luxury or foolish ornamentation. All the rooms are well lighted and well ventilated. The entire building is arranged to meet the needs and supply the comforts of student life.

FLORENCE BROWN MEMORIAL DORMITORY

This Dormitory is the first of a series of dormitories planned to be erected facing the north front of the College campus. It is situated to the rear of the main building north of the Music Hall, and is approached from both the west and north fronts by a winding driveway. The Dormitory is of Colonial architecture, with Ionic columns across the north front. It accommodates about forty students, and is reserved for the use of Juniors and Seniors. It is a memorial to Miss Sarah Florence Brown, for five years connected with Athens College.

THE MUSIC HALL

South and east of the Main Building, facing upon the west front campus, is the new Music Hall. This building, made possible through the generosity of the local citizens, and of the North Alabama Conference, stands as a monument to that spirit of real culture which is one of the most pleasing features of Athens.

In its architectural beauty, in its interior arrangements of auditorium, studios and practice rooms, in its supply-

ing the great need of accommodation for the Schools of Music and Fine Arts, this building has a large place. The exterior is in perfect harmony with the prevailing Greek style of the Main Building and of Brown Hall. From the spacious vestibule, wide stairs and doors lead into the basement, the auditorium and to the practice rooms and studios. The auditorium is perfectly lighted and ventilated, has a convenient stage, with dressing rooms, and, with the gallery, will seat comfortably an audience of six hundred and fifty. It is fitted with comfortable opera chairs, heated with steam and lighted by electricity. A very handsome green velour curtain with graceful drapery lends elegance and beauty to the auditorium.

THE HEATING PLANT

The heating plant is a recent addition to the college buildings. It represents an expenditure of \$12,000. It is housed in a neat, brick building, 40 by 60 feet. A battery of four boilers supplies sufficient steam pressure to heat all buildings on the campus. The smoke stack is 60 feet high and 15 feet at the base. It is considered the best constructed stack in this section of the state.

GROUNDS

The college grounds include about sixteen acres, with well-appointed, majestic and beautiful groves of oak, poplar and maple. The college is five minutes' walk from the depot, church and business part of the city. The quiet retirement and seclusion of the premises are as perfect as though several miles in the country.

A fine tract of land to the rear and adjoining the College campus has recently been purchased for an athletic field for the girls. It will be developed as rapidly as possible and basket ball and tennis courts will be laid out according to the best scientific methods.

THE COLLEGE LIBRARY

Realizing that in order for the student to get full benefit from her college course, she must have access to

well-selected books, the administration has succeeded in gathering together a valuable library. Several thousand volumes have been added in the last four years, and influences are at work to secure extensive contributions.

The Dewey system of classification has been adopted. The books are catalogued on cards giving the author, title and subject matter, in accordance with the methods of the American Library Association.

The library subscribes to the leading magazines and several daily newspapers. It receives gratuitously a number of religious and secular magazines.

One of the innovations of the year has been a class of bookbinding and mending which has been attended by members of the library force. Many repairs have been made and the lives of many books prolonged. This work will be more extensively carried on in the future.

The library is installed in a pleasant room 40x40 feet, which is accessible to every portion of the plant. This room is heated with steam, lighted with electricity, and fitted up with bookcases and reading tables, where the student has access to the daily papers and standard magazines, material for taking notes, etc.

Lectures and Entertainments

Athens has been unusually fortunate in the number of splendid entertainments that have been given this year in her music hall. A Lycum course consisting of recitals by such artists as Aresoni, the Zollner Quartette, the Neapolitan Opera Company, Thuel Burnham and a course of lectures by Edward Howard Griggs was thoroughly enjoyed.

Among those who have addressed the students during the year are the following: Dr. Stonewall Anderson, General Secretary of Education of the M. E. Church, South; Bishop C. M. Beckwith, of the Protestant Episcopal Church; Rev. Joseph Whitesides, Professor in Soochow University, Soochow China; Dr. C. F. Reed, Secretary Laymen's Missionary Movement; Rev. Ira F. Hawkins,

Presiding Elder of Decatur District; Dr. Wightman Reid, Medical Missionary to Korea; Mr. W. R. Walker, Athens, Ala.; Col. W. T. Sanders, Athens, Ala.; Bishop Collins Denny, M. E. Church, South; Dr. J. S. Chadwick, of the Nashville Christian Advocate; Rev. H. Whitehead, of the Alabama Christian Advocate; Dr. W. F. Tillett, Dean Biblical Department Vanderbilt University; Rev. Paul Kern, Professor in the Methodist University, Dallas, Texas.

Local Education Advantages

Athens, one of the oldest towns in Alabama, has long been noted for the culture and refinement of its society, and has contributed to the State its full quota of distinguished men and elegant women. It is an ideal place for a seat of learning, and is one of the educational centers of the State. The Eighth District Agricultural School, an excellent public grammar school, Athens Preparatory School, Greene University School (boys' preparatory), and Athens College are all situated here.

Admission of Students

All correspondence in reference to admission should be addressed to the President.

For Academy Entrance Requirements, see page 62.

Applicants for admission to the College should be at least sixteen years of age, or equivalent physical maturity, and must present testimonials of good character from responsible persons.

Admission credits are based upon a system of units. A unit means a subject of study pursued for one year in a high school, with recitations five times a week, forty minutes each, or the equivalent.

Students are admitted (1) as Freshmen, (2) as conditioned Freshmen, (3) to advanced classes, (4) as Special students, and (5) as students of School of Music and Arts only.

1. Freshmen must show preparation by certificate from accredited high schools or by examination on 14

units of the following subjects: After 1916 fifteen units will be required.

English	3	units	One year in Mechanical	
Mathematics	3½	units	Drawing	1 unit
Latin	4	units	One year in Freehand	
History	5	units	Drawing	1 unit
Science	5½	units	Two years in Domestic	
French	2	units	Science	1 unit
German	2	units	Three years in Music.....	1 unit
Spanish	2	units	One year in Agriculture	1 unit
Greek	3	units		

Candidates for the A.B. degree are required to offer of these units: 3 in English; 2½ of Mathematics; 3 of Latin; 1 or 2 of Greek or Modern Language; 1 of History.

Candidates for B.S. degree are required to offer: 3 in English; 2½ of Mathematics; 1 or 2 of German; 1 or 2 of French or Greek, or 3 of Latin; 2 of Science; 1 of History.

2. Conditioned Freshmen, students who can not enter as full Freshmen, may enter as conditioned Freshmen, on 12 units, provided 3 of these units are in English, 2½ in Mathematics. The two conditions must be removed by the end of the Sophomore year.

3. Students showing credits for advanced standing from recognized colleges may be admitted to corresponding advanced classes without examination.

4. Students of 20 years of age, or above, may be admitted as Special Students, provided they can offer 5 units, 3 of which must be in English and 1 in History. Such students must elect at least 10 hours of class work per week.

For requirements of students desiring entrance to School of Music and Fine Arts only, see page 50.

Unit Values of Entrance Subjects

Homer—Three books of *Iliad*. (One unit.)

SCIENCE

Physical Geography.—The minimum amount of preparation in Physical Geography that will be accepted for entrance in one-half year's study of such text-books as Davis' *Elementary Physical Geography*. (One-half unit.)

If this subject is pursued a whole year under a competent instructor, with the aid of field excursions and laboratory practice, a full unit of credit will be allowed.

Physiology.—The requirements in Physiology can be met by the study for a full half-year of Overton's *Physiology* or an equivalent book. (One-half unit.)

Botany.—The least amount of work in Botany for which entrance credit may be given is the equivalent of

five recitations weekly for a half-year. (Additional credit may be allowed if the subject is pursued for a longer time.) (One-half unit.)

Physics.—The entrance requirement in Physics includes an amount represented by Carhart and Chute's High School Physics. (One unit.)

Agriculture.—If studied altogether in the High School, with bulletins of the U. S. Department of Agriculture for a half-year, with five recitations weekly credit will be allowed. (One-half unit.)

Music.—Entrance credit will be given for Music studied under a competent instructor. To secure this credit the applicant must present a certificate from the music teacher indicating the amount in hours and the character of the work done. In every case the music teacher must be recommended by the principal of the accredited school with which she is affiliated, and the certificate granted by her to the pupil must be validated by the principal. (One-half to one unit.)

Degrees and Certificates

No student is admitted to College or Academy who does not do at least ten hours of class-room work weekly. See Conditions of Entrance for students of School of Music only. The degrees of Bachelor of Arts and Bachelor of Science are conferred upon those who complete the work prescribed for these degrees.

Certificates of Proficiency are given to students completing the work in any one of the following schools: English, French, German, Latin, Greek, Spanish, Mathematics, Science, Vocal Music, Piano Music, Organ, Art, Violin and Home Economics. *No certificate is awarded in any school unless the student has completed work in English equivalent to that of the Sophomore Course.*

THE TEACHER'S CERTIFICATE

In accordance with the laws enacted by the Alabama Legislature in 1915, upon the recommendation of the pres-

ident of the institution, first grade teachers' certificates, without further examination, are issued to graduates of the regular collegiate course, who have successfully passed a minimum of courses in pedagogical instruction, designated and approved by the State Board of Examiners.

The requirements for the Teachers' Certificate of applicant on graduating in or prior to the year 1916, shall consist of a minimum of six (6) session hours of professional training as a part of the collegiate course. This instruction extends over a period of thirty-six (36) scholastic weeks and shall be distributed among at least three of the courses listed under the Department of Education, pages 41-42.

Those who graduate in 1917 must have at least seven (7) session hours of professional training and all who graduate in any year after 1917 must show a minimum of nine (9) session hours. A session hour here used is one 60-minute recitation period or its equivalent, each week for as a scholastic period of thirty-six (36) weeks.

For the year 1916, the session hours are to be divided as follows: Psychology (3 hours); History of Education (3 hours); Practice Teaching and Observation (2 hours).

Examinations

Examination of new students applying for entrance to the Freshman class or for advanced standing, who do not come from accredited high schools or colleges, will be held on Tuesday and Wednesday, September 14 and 15, 1915. Students who desire to take these examinations should report for classification on Monday.

Examinations are held at the close of every quarter for the purpose of keeping accurate records of the student's work. Absence from these examination prevents a student from receiving credit for that course in which the failure to take an examination occurs. Upon the presentation of a certificate from a physician stating illness as the cause of inattendance, and upon the payment of a fee of \$1.00 for each examination taken out of schedule time, a student will be given a special examination.

Receipt showing the payment of the fee must accompany the request for each special examination.

To secure credit for a subject, an average of 70% must be made on the entire work in that subject.

No degree student will be permitted to take less than fifteen or more than nineteen hours of class work. Advanced work in Music and Art may count toward a degree.*

At the beginning of the Junior year, every student-candidate for a degree shall select a leading subject to be known as her major study; the work in the major shall not be less than 15 hours, nor more than 20 hours.

NOTES—Those who have completed in preparatory school a course in Solid Geometry, may, with the permission of the head of the department, substitute another course in Mathematics.

COURSE II. COLLEGE ALGEBRA.—This course includes arithmetical, geometrical and harmonical progressions, permutations and combinations, the elements of the theory of equations, etc.

Second Semester, three hours.

COURSE III. PLANE TRIGONOMETRY.—A thorough study of the properties of the right and oblique triangles.

First Semester, three hours.

COURSE IV. ANALYTIC GEOMETRY.—This course covers the straight line, circle, parabola, ellipse, hyperbola, conic sections and equations of the second degree.

Second Semester, three hours.

COURSE V. DIFFERENTIAL CALCULUS.—Differentiation of functions with the usual geometric and mechanical applications.

First Semester, three hours.

COURSE VI. INTEGRAL CALCULUS.—Integration of functions with applications.

Second Semester, three hours.

COURSE VII. THEORY OF EQUATIONS.—An advanced course in the general theory of equations, in which a knowledge of the Calculus will be presupposed.

First Semester, three hours.

COURSE VIII. THE TEACHING OF MATHEMATICS.—A course treating of the content of elementary mathematics and of the problems in teaching it.

Second Semester, three hours.

History

COURSE I. COURSE I. EDUCATIONAL PSYCHOLOGY.—(a) *Lectures*, recitations and parallel reading.

Two hours, second semester.

(b) Laboratory practice.

One laboratory period of two hours a week.

An introductory course in Psychology is prerequisite for this course. This can be taken with or without the laboratory as a two or three hour course.

COURSE II. HISTORY OF EDUCATION.—A general survey of ancient and medieval institutions. Lectures, discussions and papers.

Three hours, first semester.

COURSE III. HISTORY OF MODERN EDUCATION.—A general survey of educational institutions since the Renaissance. Lectures, discussions and papers.

Three hours, second semester.

COURSE IV. PRINCIPLES OF EDUCATION.—This course deals with the fundamental principles of education, including the purposes and methods of educators.

Three hours, first semester.

COURSE V. MENTAL DEVELOPMENT.—This is a course dealing with the general characteristics of development from the standpoint of motor, intellectual and social development.

First semester, two hours.

(Three hours credit may be obtained in this course by outside work including parallel reading and papers.)

COURSE VI. EDUCATIONAL CLASSICS.—This course consists of an intensive study of writings of such educators as Plato, Quintilian, Locke, Rousseau and others. Prerequisite Courses II and III. *Second semester, two hours.*

Courses in Practice Teaching are given under the direction of the Departments of English, Mathematics and Languages throughout the year.

For requirements for Teacher's Certificate see pages 24-25.

Biology

COURSE I (a) GENERAL BOTANY.—This course is devoted to the fundamental relationships of living things, and to the structure, physiology, and ecology of plants. Three hours of laboratory work are required weekly. The students are provided with materials for individual investigation and study. *Required of Scientific students*

Three hours first half year.

Text: Coulter's Plants.

(b) GENERAL ZOOLOGY.—This course is similar to Course I in its scope and methods. A study of the types

from the different Phyla of the animal kingdom, the laboratory work consisting of individual dissection. *Required of Scientific Students.*

Three hours second half year.

Text: Animals, Jordan, Kellogg and Heath.

COURSE II. HUMAN PHYSIOLOGY AND PERSONAL HYGIENE.—A course in the general principles, the structure and physiological activities of the human body. Special emphasis is placed upon the structure of the tissues of the body and their nourishment and destruction. *Elective.*

Three hours half year, first or second.

Physics

COURSE I. GENERAL PHYSICS.—A comprehensive study course of the elementary principles of Mechanics, Heat, Light, Sound, Magnetism and Electricity. Demonstrations from everyday life. Individual laboratory work throughout the year.

Three hours throughout the year. Required of Scientific Students.

Texts: Carhart's College Physics, Stone's Experimental Physics.

Three hours throughout the year.

COURSE II. MECHANICS, MOLECULAR PHYSICS AND HEAT.—This is advanced treatment of the general principles of Course I. *Elective.*

Texts: Millikan.

Three hours first half year.

COURSE III. SOUND, LIGHT AND ELECTRICITY.—This course follows Course II and is a continuation of Course I, advanced in treatment. Both courses are accompanied with laboratory work throughout the year. *Elective.*

Texts: Franklin and Macnutt.

Three hours second half year.

COURSE IV. THE HISTORY OF PHYSICS.—Lectures and individual reports upon specially assigned departments of the branch. *Elective.*

Two hours first half year.

Chemistry

COURSE I. GENERAL CHEMISTRY.—The first half year is given to the non-metals, the metals being studied from the standpoint of the Periodic Law. Close attention is given to the fundamental principles, the application of chemistry to the industrial arts and to laboratory work. *Required of Scientific Students.*

COURSE II. QUALITATIVE ANALYSIS.—A study of the commoner compounds of the metals, alloys, their solubility. Analysis in solution and by flame. One hour recitation. Nine hours laboratory work. Course I is pre-requisite. *Required of Scientific students.*

COURSE III. ORGANIC CHEMISTRY.—A systematic detailed study of the principal series of hydrocarbons, with practical laboratory work. *Elective.*

Two hours throughout the year.

COURSE IV. HOUSEHOLD AND ORGANIC CHEMISTRY.—This course includes tests in the composition and quality of foods with reference to their nutritive value, chemistry of dyestuffs, house cleaning materials, etc. See Department of Home Economics. *Required of Home Economics Students. Three hours, half year.*

Geology and Astronomy

COURSE I. GENERAL GEOLOGY.—A study of the natural conditions of our own country in the various agencies which have caused the different physiographic structures. An orderly account of the development of the inhabitants of the earth. *Elective.*

Texts: Chamberlain & Salisbury Geology; other reference books.

Two hours throughout the year.

COURSE II. ASTRONOMY.—This course treats the subject descriptively with the purpose of giving general information. The principles underlying the science of the heavenly bodies, methods of determining time, motions of the planets, etc., are thoroughly discussed. Elective for students who have had Mathematics I and Physics I. *Elective.*

Texts: Elements of Astronomy by Young; other reference books.

Two hours throughout the year.

Home Economics

A special Certificate of Graduation is given to college students completing three years of study in this department in accordance with requirements on page 24.

COURSE I. ELEMENTARY COOKERY.—Practical work in simple cookery. *Two hours per week throughout the year.*

Open to all students.

Required for a certificate.

Laboratory fee \$15.00 for the year.

Text: Boston Cooking School Cook Book.

COURSE II. THEORETICAL COOKERY.—A study of the scientific principles underlying practical cookery and a study of the production and manufacture of food supplies.

One hour per week throughout the year.

Required for a certificate.

COURSE III. HISTORY OF FOODS.—A study of the five food principles, characteristics, etc., including the study of Diatetics.

One hour per week throughout the year.

Required for a certificate.

Text: Patties Dietetics.

COURSE IV. HOME DECORATION AND SANITATION.—The situation, surroundings and plans of a house—decoration as applied to the home.

One hour per week throughout the year.

Laboratory fee \$3.00.

COURSE V. HOME MANAGEMENT.—Care of the kitchen, pantry, etc., care, cleaning and repairing of rugs, floors.

One hour per week throughout the year.

Required for a certificate.

COURSE VI. ADVANCED COOKERY.—Practical work including the preparation of fancy desserts, salads, puff pastes, etc.

Two hours per week throughout the year.

Open to all students having completed Course I.

Required for a certificate.

Laboratory fee \$15.00.

Text: New Book of Cookery.

COURSE VII. SANITARY AND APPLIED CHEMISTRY.—A short course in the Chemistry of Foods, including food tests, etc.

This is the same course as is offered by the Department of Chemistry, Course IV. (See page 44).

Three hours per week for first semester.

Required for a certificate.

COURSE VIII. HOME NURSING AND PHYSIOLOGY, HYGIENE AND PHYSIOLOGY AS APPLIED TO THE PROBLEM OF THE HOME.

Two hours per week throughout the year.

Required for a certificate.

COURSE IX. THEORY AND PRACTICE OF TEACHING HOME ECONOMICS.

One hour per week. Second semester.

Required for a certificate.

COURSE X. ELEMENTARY SEWING.—Practical work in simple cutting and garment making.

Two hours per week throughout the year.

Open to all students.

Required for a certificate.

Laboratory fee \$10.00 (does not include material.)

COURSE XI. ADVANCED SEWING.—Advanced work in garment making.

Two hours per week throughout the year.

Open to all students having completed Course X.

Required for a certificate.

Laboratory fee \$10.00.

COURSE XII. DRESS DESIGN AND TEXTILES.—The drawings of original dress designs and a study of the fabrics used in working out a design.

One hour per week throughout the year.

Open to all students.

Required for a certificate.

Laboratory fee \$3.00.

COURSE XIII. FANCY COOKERY.—A course of twelve lessons in the making of fancy cakes, candies, desserts, etc.

Open to all students.

Laboratory fee \$6.00 (includes material).

*Department of Music
and Fine Arts*

School of Music

MISS KATE LESLIE McCANDLESS,
DIRECTOR

The success which has attended the School of Music of Athens College has led the authorities of the institution to plan for larger development of this department. The beautiful recitals given throughout the spring term have attracted state-wide attention, and have won high commendation from all who have attended them.

The authorities have established the School of Music in its own quarters, in a building all its own, properly fitted up with auditorium, practice rooms and attractive studios. For description of School of Music Building, see pages 15 and 16.

Admission

Students may be admitted to the School of Music and Fine Arts without any requirements of entrance other than those of health and moral character, provided they do not room in the dormitories reserved for College students, or for students in the Academy. Special arrangements for rooming accommodations in apartments reserved for the School of Music may be made through the President of the institution, but in no case may a student who has worked only in the School of Music and Fine Arts be assigned to dormitories other than those especially reserved for such students. Day students may be enrolled in the School of Music and Fine Arts on the application of parents or guardians, if the student be under 21 years old, or upon their own application and presentation of credentials of health and character if they be over 21 years of age.

Course of Study

A student carrying the regular college or academy course, who is well prepared, ought to be able to devote

from one to two hours a day to Music, and for advanced work, will be credited on the four-year course leading to A.B. or B.S. degrees in accordance with credits allowed in standard colleges. Students desiring to devote more than the time mentioned to this branch should take more than four years for the A.B. or B. S. course.

Certificates

Certificates will be given to students in Piano, Organ, Violin or Voice, *whose advancement in literary work is equivalent to Sophomore English* and two years in a Modern Language, or who have finished satisfactorily the four-years' college course in English, who read well at sight and are able to give satisfactorily in public a program subject to the approval of the Music Faculty.

One year's additional study after the award of certificate completing the required course entitles the student to a special diploma. This course must include Harmony, the History of Music, and not less than three hours daily practice.

HARMONY

(1) Harmonic Material. (2) Intervals. (3) Chord Formation. (4) Chord Succession. (5) Triads of the Minor Scale. (6) Inversion of Triads. (7) Chords and Inversions of Chords of the Seventh. (8) Altered Chords. (9) Clefs. (10) Cadenzes. (11) Modulation. (12) Two, Three, Five, Six, and Eight-voiced Writing.

THEORY

A technical and musical drill in the foundation principles of Musical Thinking, affording the student thorough training and discipline in the acquirement of a knowledge of Scales, Intervals, Chords, Key Relationship, together with exercises in Melody Writing and Ear Training conducive to Mental Technic.

HISTORY OF MUSIC

Music biographies of ancient and modern composers; Bach, Handel, Haydn, Mozart, Beethoven, Schubert, Men-

delssohn, Schumann, Chopin, Wagner, etc.; Grieg, Tschai-kowsky, Moszkowsky, Saint-Saens, McDowell, Brahms, Chaminade, etc.

COURSE I. ELEMENTARY.—In this course especial attention is paid to the production of pure tone and scale work in the first position. Studies by Sevcik (Book I.), Kreutzer and Maza. Simple pieces by standard composers.

COURSE II. INTERMEDIATE.—Scales in the first five positions, including Sevcik's Shifting Exercises (Books I., II.), De Beriot's Sonatas (Books I., II.), and simple concertos by Fiovillo, Rode, Maza and Viotti, and Etudes by the same composers. Special attention is given to development of left-hand work.

COURSE III. ADVANCED.—With advanced students a thorough knowledge of the entire Sevcik school is required. Sonatas for piano and violin by Beethoven, Handel, Gade, and Greig, also by the modern composers,

Weinowski, Bruck, De Beriot and Godard. A diploma is granted upon completion of this course.

COURSE V. SPECIAL.—A course will be outlined by the Director of the Department of Violin Instruction for those desiring a teacher's certificate.

Art

After a three-years' course averaging at least 10 hours a week, this school offers a certificate to its students who met the college requirements in English.

Students are advised to take the regular course, but special students are allowed to do copying for decorative purposes in any medium they prefer.

Finished work will be under the control of the college authorities until after the exhibit at the close of the year.

The purpose of this department is to prepare the student to teach and to aid the student to acquire a good foundation for continued study of design, illustration, portrait painting, commercial drawing or any other branch of art they may care to follow. A prescribed course is pursued by all yet the individuality of the student is retained.

COURSE I.—Study of form, proportion, color, light and shade by means of objecting drawing and painting in crayola, chalk, charcoal and water-color. Cast drawing and sketching from life in charcoal.

COURSE II.—Still life in charcoal, water-color, ink, pastels and oils. Designs from nature, forms for leather work and china painting. Pose sketching in water-color and pen and ink. Original composition, poster drawing and lettering. Dress design and interior decoration.

COURSE III.—Original composition and dress design continued; study of period furniture and continuation of color study in interior decoration. Pose sketching in

water color and pen and ink; advanced still-life in all mediums; copies of good studies in oil and pastels.

COURSE IV.—China painting from original and adapted designs,—conventional, naturalistic and figure paintings in overglaze colors, lustres and enamels. The china is fired in the studio.

COURSE V. HISTORY OF ART.—This course is designed to acquaint all students with a general knowledge of the history of architecture, sculpture, and painting. Required of Art Certificate students.

One hour throughout the year.

COURSE VI. TEACHER'S COURSE IN DRAWING.—An invaluable course for those expecting to teach in the grades and high schools of the state, as drawing is one of the requirements in all the schools. Lessons in object drawing for study of line, form proportion and color; paper cutting and drawing for illustration, leather staining, stencil designing, poster drawing, pose sketching in crayola, charcoal and water color, basketry, and elementary dress design. Required of Art Certificate students.

Two hours throughout the year.

Student Organizations

Young Women's Christian Association

The student body is affiliated with the Central Division of the Young Women's Christian Association. The College Association is in a good, healthy condition; a lively interest is taken in all the different departments of work, and its active members are drawn from the students of high class standing. Its influence upon the college life of the girls is excellent.

OFFICERS 1914-1915:

Mootie Lu Buchanan.....	President
Mary Spencer.....	Vice-President
Pearl Tabor	Secretary
Amelia Walston	Treasurer

Literary Societies

The students are organized into two literary societies. The object of these societies is to foster an interest in letters, to develop the power of expression by debate and impromptu speaking, and to acquaint the students with the principles of parliamentary usage. These societies meet on Monday afternoon of each week, and membership in one of them is compulsory.

GEORGE ELIOT LITERARY SOCIETY

Elizabeth Vann, President 1914-1915

JANE HAMILTON CHILDS LITERARY SOCIETY

Amelia Walston, President 1914-1915

Athletic Association

In addition to the daily Physical Culture course given free of charge to all students, outdoor sports of a nature adapted to the use of young women, are encouraged at

Athens College by the Athletic Association. It is not, however, our purpose to develop athletes among our girls. Tennis courts and basketball grounds stimulate the desire to excel in these games. The students are permitted to engage in match games with students of other institutions, provided they can arrange the meet upon our own campus. On the occasion of the celebration of the first of May, Field Day is observed, and prizes are offered and won in all kinds of athletic contests.

Student Government Association

This organization which is the outgrowth of a long existing honor system, has for its purpose the ordering and control of the dormitory life and of most other matters not strictly academic. Its membership includes all the students. Gratifying results have continually followed the increase of opportunity and of responsibility thus given to the students, especially in the development of self-restraint, consideration for the majority and the true co-operative college spirit.

Miss Mootie Lu Buchanan, President 1914-1915.

Alumnae Association

The Alumnae Association has never been stronger nor more active than now.

The report of the Treasurer shows a substantial cash balance already in hand, and the Association feels greatly encouraged as to the ultimate success of their efforts for the endowment campaign.

OFFICERS FOR 1915-1916

Mrs. Eliza Coleman Thach.....	
.....	Honorary President
Mrs. J. R. Hoffman.....	President
Mrs. M. W. Rives.....	First Vice-President
Miss Carolyn Hoefer.....	Second V.-President

Miss Maude Woolley.....	Corresponding Sec'y

Endowment

The movement to raise an endowment of \$100,000.00 for Athens College has been inaugurated this year. From its inception the college organizations have taken an active interest, and have tried to swell the fund in every way possible. A variety of entertainments have been given. A Saturday Market where daintily prepared articles of food were weekly placed on sale by students of the Home Economics Department contributed greatly to the fund. The entire student body has given loyal co-operation to this movement because they realize that their Alma Mater needs the fund to maintain her place among the A grade colleges of America.

The Sunday Schools and Epworth Leagues of the North Alabama Conference have allied themselves with the College to secure \$25,000.00 to endow the Chair of Religious Pedagogy.

Publications

This year *The Athenian*, a bi-monthly publication issued by students of the College, was suspended, and the money that would have been used in its publication was given to the endowment fund. In 1916 *The Athenian* will be resumed.

The Oracle, the annual, issued by the students, which constitutes a resume of the lighter side of college life, has not been published this year because of the concentration of student effort on the endowment. It will be resumed in 1915-1916.

*Athens College
Academy*

Requirements for Admission

All correspondence with reference to admission to the Academy should be addressed to the President of Athens College. Applicants for admission to the Academy must be not less than twelve years of age, and must have completed a course of study equivalent to the seventh grade of the Public Schools of Alabama, which includes the following:

- Elementary English Grammar.
- Practical Arithmetic.
- United States History.
- Higher Geography.
- Physiology.

Applicant must be able to write simple English correctly. She must write legibly and read the English language with fluency.

Certificates of honorable dismissal from the last school attended must be presented. Applications for admission must be sent in on blank found in back of catalogue. Additional blanks will be furnished on request.

Requirements for Graduation

A candidate for graduation must satisfactorily complete the course of study outlined below. On examination, and after recommendation by the Academy faculty, a diploma will be awarded for the completion of 14 units of work prescribed for college. This will entitle the holder to unconditioned entrance to the Freshman class of Athens College or any standard college in the South.

For definition and list of prescribed units see pages 18 and 19.

General Information

Information for Both College and Academy Students

Physical Training

The aim of this department is threefold: Hygienic, Aesthetic and Corrective.

The hygienic exercises aim to produce bodily vigor, to promote a healthful development of the individual and to establish correct habits of daily life.

The aesthetic element is introduced by means of rhythmical exercises for gaining beauty of posture, freedom and ease of motion.

By the corrective work an effort is made to overcome and prevent the tendency to faulty attitudes brought about by student life.

All students are required to take physical culture. Special emphasis is placed upon outdoor exercise, such as basketball, tennis and field games.

Scholarships

There are thirteen scholarships awarded annually—one for each district of the North Alabama Conference, eleven covering tuition in collegiate classes, worth \$60 each, and one, known as the Y. W. C. A. scholarship, worth \$250.00, covering the expenses of board, laundry, tuition and medical fee for nine months. The twelve tuition scholarships are in the hands of the presiding elders, and applicants must apply to the presiding elder of her district. The award will be based upon the merit and need of aid of the applicant. The district scholarships cannot be awarded to applicants who are able to pay tuition.

There are nine self-help scholarships, varying in value from \$60.00 to \$160.00 each. They are open to young women who have finished high school, and who wish to pursue college courses, but are unable to meet all of their

expenses. The compensation required for these scholarships is from one hour and a half to four hours per day of domestic service. The duties are so distributed as to make interference with class-room work unnecessary. Only girls of unblemished moral character, strong intellectual capacity, approved social standing, and of fine physical development need apply. Form of application for those desiring to file requests for consideration for scholarships for 1915-16 will be sent on request.

Prizes

There are four class prizes offered for competition. These prizes are awarded to the four students making the highest grades in scholarship in their respective classes. The following were 1915 prize winners:

MISS AMELIA WALSTON, Russellville, Ala.

Senior Prize

MISS RUTH BURTON, Sikeston, Mo

Junior Prize

MISS CARRA LEE, Winfield, Ala.

Sophomore

MISS CLARICE DOYLE, East Prairie, Mo.

Freshman Prize

The W. T. Sanders English Prize, \$10 in gold, open to Juniors and Seniors, was won by Miss Mamie Crutcher. Athens, Ala.

The Debater's Prize of \$5 in gold, offered to the best debater, was won by Miss Louise Burns, Gadsden, Ala.

Academy Prizes

MISS PEARL RUCKS, Geraldine, Ala.

MISS CAROLINE STECKERT, Gainesville, Fla.

MISS HELEN NETHERY, Athens, Ala.

MISS MAGGIE LOU JOHNSON, Athens, Ala.

To Patrons

With good reason, patrons hold us responsible for the welfare of their daughters. Therefore it is imperative

that parents decline to sanction in their daughters, who are in our school, any violation of our rules.

Athens College is designed to be distinctly a Christian school, with clear-cut Methodist proclivities; and, as such, it endeavors constantly to serve as a faithful expositor and exponent of the faith for which Methodism stands. Nevertheless, respectful regard is held for the religious tenets of patrons and pupils of other communions. Touching each student, our one purpose is to secure well-rounded character, developed and endowed according to standards erected by the Christian religion.

Daily, in the College chapel, the Faculty and students come together to read the Scriptures, to sing and pray. All students are expected to attend chapel exercises. The Bible is a text-book in the College. Lectures are given by the President on the general scope of Christian doctrine and discipline, and the necessity for personal piety is impressed upon mind and heart.

Students, as a rule, attend religious services at the Methodist Church. Those of other denominations are permitted to attend the church of their choice. Sunday School is conducted in the College Chapel and the members of the faculty have charge of the classes. A class in Methods for Sunday School Management is one of the desirable features.

1. Parents are reminded of the urgent importance of students being present at the beginning of the session. A few days lost at the beginning may mar the progress of the whole year. Students should remain at their studies without interruption.

2. Each boarder furnishes her own toilet articles, towels, table napkins, pillow, pillow cases, sheets, blankets, bed-spreads, teaspoon, and tumbler—all marked in her own name.

3. Damage or breakage of furniture, beyond ordinary wear, will be charged to the inmates of rooms where damage is done.

4. Costly jewelry and costly clothing should not be brought to college. The outfit of a college girl should be simple. Money and costly jewelry must be carried on the person or deposited in the safe in the office. Valuables must not be left in bedrooms.

5. It is positively harmful for students to have large amounts of spending money. To meet necessary and unforeseen expenses, reasonable deposits may be made with the President. Except by instruction from parents, money will not be advanced to pupils. Athens College, while intended to be a college of moderate expense, may become very expensive if parents have poor judgment in this matter.

6. Telegrams for students must be sent in care of the President. All packages sent by express should be pre-paid and sent in care of the President.

7. When students are to return home, written instructions to that effect should be sent to the President.

8. Contracts are made for the year and are binding for that time. Whenever a pupil is entered it is regarded that between President and patron a contract is implied for the entire school year. Withdrawal from school, even for a few days, not only impairs scholarship, but induces a spirit of restlessness unfavorable to study. Students entering within two weeks of beginning of term are charged for full term. For absence from school no deduction will be made except for protracted sickness. No deductions are made for holidays, nor for absence for the last six weeks of school.

9. Students in dormitories care for their own rooms.

10. Leave chafing dishes at home. They are dangerous and threaten two evils—fire and dyspepsia.

11. Parents and guardians are requested to send no boxes of eatables to boarding students, save at Christmas or Thanksgiving. Good, ripe fruit is permissible at any time. One of the greatest sources of poor health and ineffective work is irregularity in eating.

The Ten Rules

1. All students must obey all bells promptly.
2. Orderly arrangements of rooms and toilet at all times is required.
3. Students must observe hours of recreation and rest as well as of study.
4. Students must observe the Sabbath quietly.
5. Attendance at Sunday School and church is required.
6. Students must make prompt report of sickness to nurse.
7. Students must give cheerful obedience to the direction of officers.
8. Borrowing money, books, jewelry, or clothing is prohibited.
9. No students may leave any class or change a study without the consent of the Professor and of the Chairman of the Classification Committee.
10. Only in cases of special authorization by the President may students make accounts with local individuals or stores.

Dress

To secure neatness and order upon the part of young ladies, both as regards personal attire and arrangement of clothing and rooms, special and painstaking care is given.

A handsome, but not expensive, tailor-made suit will be furnished by or before October 15. This suit is made in New York, and is fitted by a tailor sent out by the firm furnishing the suits. No college girls are dressed in better taste than are those of Athens College. The total cost of uniform, including hat and gloves to match, is \$16.50. Our girls, not the College, get the benefit of wholesale prices. Parents are requested to make no special outlay for dress in advance. For commencement, only simple costumes are permitted. Prohibition stands against décolleté dresses and extremely short sleeves.

Health

In the history of a school, health is a matter of prime importance. The most satisfactory sanitary conditions are maintained in the school.

Not only is the greater care exercised in the screening of the dining room, pantry, kitchen, infirmary, etc., but a Forbes Sterilizing Apparatus has been installed in the building at a large expense, by which every drop of drinking water is sterilized before reaching the inmates of the College. The best sanitary advice is consulted in order that the health of the school may be maintained. It may be well to state here that the analysis of the drinking water used in the College before sterilization shows it to be absolutely pure, and that the sterilizing plant is installed simply as a protection against any possibility of infection. The water supply is pure freestone, what is known in engineering circles as "boiler-pure" water.

Infirmary

A well-ventilated, well-heated infirmary is maintained. An experienced graduate nurse is in charge. Her entire time is devoted to looking after the health of our girls. In case of illness the patient could not receive better attention in a hospital. In cases of protracted illness patrons will be charged with the actual amount of expense incurred by the College.

The College Home

The College Home is under the immediate supervision of the President. Students are received and regarded as members of the family and cared for as her own daughters. No pains are spared to secure all the advantages of a well-ordered, Christian home. Teachers residing in the College building render efficient aid in making this a safe and pleasant home for the students. A faithful night watchman is on duty from six in the evening until six in the morning.

A generous table of good, wholesome food, well cooked, is kept. An efficient steam-heating plant keeps

the buildings comfortable in the coldest weather. Pupils boarding in the College are free from the interruption of society, do not incur exposure to inclement weather, lose no time on account of rainy days, and are under rules conducive to habits of study and good health. The buildings are equipped with all modern conveniences.

The Athens College delights in practicing the old-time virtue of hospitality, and is always happy to welcome as its guests patrons of the institution, ministers, benefactors and former students of the college. Pleasant guest rooms have been set apart for the school year 1915 and 1916 for the entertainment of visitors. *Under no circumstances will guests be entertained in student dormitory rooms.* As students frequently wish to have the pleasure of a visit from relatives, certain rules and regulations have been made indispensable. Students wishing to entertain a guest must register the guest's name in advance of her coming, the time of her expected arrival, and of her expected departure, in the guest book in the general office. The student entertaining must inform the house-keeper so that place may be reserved in the dining room. No student will be permitted to have a guest *unless a guest room for the entertainment of the guest is vacant.* A fee of \$1.00 per day will be charged students' guests after a stay of forty-eight hours.

Scholastic Year

The next scholastic year will open on Wednesday, September 15, 1915, and close May 23, 1916.

For convenience in making payments, the school year is divided into two financial sessions, the first beginning on September 15, 1915, and the second beginning on January 27, 1916.

*Payment for the first session will be required upon entrance, and payment for the second session on January 27, 1916.

*Where patrons are unable to make cash payments at beginning of the semester a negotiable note, payable to Athens College

We cannot do a credit business without impairing the efficiency of the school.

Use of instrument, one hour, no charge. Additional piano practice, when desired, may be obtained by the payment of \$5 per hour per half year.

Where two or more boarding students come from the same family, ten per cent discount will be made from the regular charges. *Special discounts allowed to daughters of teachers actively engaged in their profession.*

The medical fee includes physician's attendance, drugs and the attention of a graduate nurse in cases of minor sickness. In cases of serious illness expenses must be borne by patrons. If parents will bear in mind that a single visit from the physician costs \$2, they will see how reasonable is this small fee.

*Daughters of Methodist ministers in the traveling connection are charged \$140 for the school year for all expenses in the Boarding Department, including laundry, and to them literary tuition is free. *They must, however, pay the medical fee and the library fee additional.*

Books, stationery, art materials and sheet music are furnished at publishers' retail prices. These must be paid for *in cash*. Second-hand books can be secured by many students at half price.

*On Music and Art tuition 50 per cent discount is allowed to ministers' daughters, lessons under the Piano Director excepted, which will be charged at full price.

No honors, awards or diplomas will be conferred until all expenses are satisfactorily arranged.

When, on account of protracted sickness or Providential causes, pupils are withdrawn, money will be promptly refunded for pro rata amount *on board*. No refund will be made on tuition, *but a credit, which may be transferred to another student if desired*, will be allowed; no deduction will be made for holidays, for temporary absence, for the last six weeks of the session, nor for withdrawals at Christmas.

Pupils who enter any of the special departments are expected to continue to the close of the school year. No deduction will be made unless the withdrawal be for Providential reasons.

We do not desire to receive pupils who expect to drop out before the close of the school year.

Registration fee, payable at time of registration, to be credited on board and tuition, \$5.

Total necessary expenses for student for thirty-six weeks in College, \$250; in Academy, \$230; minister's daughters, either College or Academy, \$150.

STATEMENT OF PREPARATORY WORK

The following statement should be complete and detailed, showing all the studies pursued at the high school from which the applicant comes, the time devoted to each study in weeks and hours per week, the text-books used, and the scholarship marks or grades received. If the applicant has attended other high schools or academies than the one from which she applies, she should state separately the studies completed in such institution. Laboratory notebooks should accompany the statement, in case the applicant wishes credit for work in any of the sciences.

Before this statement can be finally accepted, it must be indorsed by the school authorities. To avoid delay, however, the applicant may forward an unofficial copy of this statement to Athens College, for provisional consideration, retaining the original for the purpose of procuring the necessary indorsement.

Certificates from a high school, or academy, or preparatory department of a college, are not accepted in lieu of entrance examinations unless the school in question has been duly examined and accredited by the Alabama Association of Colleges or by some other college or university at which the entrance requirements are equivalent to those of Athens College. The Committee on Admission, acting on behalf of the faculty, is empowered to reject the credentials of any applicant in whole or in part, and to require the usual examination in any or all of the subjects required for admission.
